

OHINEMURI COUNTY COUNCIL

ANNUAL MEETING.

The ordinary monthly meeting of the above Council was held in the Council Chambers on Saturday. There were present—Cr. Cook (chairman), Humphreys, Moore, Butler, Corbett, Strang, Nicholls, and Walsh. The first business dealt with was the opening of tenders for contract work in various parts of the County as follows:—

For widening the Karangahape Hill Track, there were four tenders, and that of John Pouch for £75 was accepted. For improving the Waitekuri Hill track the tenders of Thomas Dougherty at £57, being the lowest, was accepted. For forming the Waitekuri main road there were seven tenders, and William Collett's tender for £165, being the lowest, was accepted. For forming and metalling No. 1 section of the main road, Joseph Pouch's tender at 9s 6d per yard for metal, and 15s per chain for forming was accepted. For forming and metalling No. 2 section, Edward Bain's tender at 5s 9d per yard for metal and 18s 6d per chain for forming, was accepted. For forming and metalling No. 3 section, Edward Bain's tender at 6s 3d per yard for metal only was accepted. For No. 4 section (metal only) E. Bain's tender at 6s 6d per cubic yard was accepted, and for No. 5 section P. Traillor's tender for supplying metal only at 8s per cubic yard was accepted.

TOI CREEK TRACK.—Mr. T. A. Dobson wrote informing the Council, that owing to fresh discoveries having been made lately it was expedient to make certain alterations in the tracks to be formed respecting which suggestions had been forwarded to the Council at its last meeting. The road to the Surprise claim had already been made by the owners of the Champion lode claims for a distance of 18 chains, and required to be extended about 25 chains further, for which work it was proposed to invite tenders at once. At a meeting of the Toi Track Committee held on the 9th inst., the following resolutions were passed:—(1) That tenders be at once invited for forming 20 chains of road to Cameron's claim. (2) That the lower track to the Champion lode claims be extended to Surprise company's ground, a probable distance of 25 chains, and that tenders for work be called without delay. (3) That a sum of £50 be recommended for payment to owners of Champion lode claim for track made by them, and for work done on main road, said sum being County Engineer's estimate of value of work done. The construction of other roads and tracks would entail a cost of about £75.—On motion of Cr. Nicholls, seconded by Cr. Humphreys, it was resolved that the sum of £50 be paid to owners of Champion lode claim for work done on road, and that application be made to Government in aid of carrying out other proposed works.

PAEROA.

(Per Wire.)

Our correspondent wires the following items last night:—

At the Silvertown mine, Waikato, 60lbs of rich specimens were obtained from the bottom of the winze when breaking down the reef to-day, and there is every prospect of a continuance of similar stone.

There was a full congregation, comprising all denominations, at the Roman Catholic Church here yesterday morning, when some 28 youths and maidens were duly confirmed. The ceremony was performed by Bishop Luck who delivered a very spirited exhortation to the candidates, and in the afternoon the same gentleman addressed the adult members of the parish.

The cutter Ross, having fifty ton of iron ore on board for the Woodstock furnace, is stuck hard and fast on a bank near Te Puke, but it is expected that she will be got off with the rise of to-night's tide, and will then come up to the wharf here to anchorage her cargo.

RETURN OF THAMES SHOOTISTS.

A LARGE crowd assembled on the Goods Wharf shortly after one o'clock yesterday afternoon, among whom were the principal residents in the town, to receive with due honor the volunteers who were expected back by the Rotomahana. On the arrival of the vessel three cheers were given, and Captain Wildman and Lieut. Mayo went on board and heartily congratulated the prize winners on their success. All hands appeared to have greatly enjoyed their temporary sojourn at Wanganui, and speak in terms of the highest praise of the treatment accorded to them, and of the hospitality they met with. The Naval vessel under command of Lieut. Potts, and comprised Weir, Gill, Johns, Thorburn, Floyd, Henessey, and Brownlow. The Rifle Rangers were under Capt. Lucas, and consisted of Messrs. Downie, A. and J. Thomas, J. Inglis, Climo, Hawk, Patterson, Clout, and Kendall. Capt. Wildman briefly alluded to the necessity for postponing the formal reception till the evening, inviting the volunteers to accompany him to the Governor Bowen Hotel, which they did, and there, after partaking of refreshments, the captain detailed the arrangements made for the evening parade. The company then separated.

Shortly after seven o'clock the Naval Artillery and Rifle Rangers assembled in all but their full strength at the Naval Hall, and marched on to the Bowen Hotel, having been joined by the Shortland and Grahamstown Fire Brigades under Capt. West. On arrival at the Bowen the companies were halted, and at the invitation of Capt. Wildman the Representatives joined the ranks, and the officers of their comrades. The Volunteers then returned to the wharf, where they formed in a square. The sight here was extremely effective, the torchlights being varied by the burning of red fire at intervals. Capt. Wildman called the Representatives to the front, and said:—Capt. Lucas and the other representatives who have to-day returned from the shooting at Wanganui have met me to congratulate you on your return and on the measure of success you have achieved there; also on the excellent shooting you have made. No doubt there was some disappointment because our hopes have hardly been reached, and we expected more than was reasonable. The Carbine Belt had been brought here several times, and more recently the Rifle Belt. You have hot brought either, but have done the next best thing, secured both the Challenge Caps. He could quite well understand the peculiar difficulties they had to encounter in the difficult light, and the powder which seemed to have been a sort of scrambled lot marked 1854. They had also to meet the difficulty as to sights, which they had known little about, and these matters told considerably on their firing. They had now to receive a most hearty welcome, as their comrades were fully satisfied at the way in which they had upheld the honour of the district. He again congratulated them, and called for three cheers, which were heartily given, with musical honours. Capt. Wildman then called forward P.O. Prece, and presented him with the District Belt won by

him. The Representatives then fell in, the band playing admirably "Home, sweet Home." The Volunteers and Fire Brigades then marched to Shortland and back, their course being illuminated by torchlight and intermittent burning of coloured fires. As they passed the Junction Hotel, both going and returning, ex-Lieut. Burton saluted his comrades by the firing of rockets.

WELLINGTON ITEMS.

(Per Telegraph.)

The Association wires:—The evidence which Bishop Hadfield gave in the case of Bryce v. Rusden was taken by Commission during the bishop's visit to London, and is stated to have been in favour of defendant.—A meeting of the Cabinet is called for to-morrow afternoon.—The Native Minister has asked natives to meet him on April 2nd, at Papawai, to discuss the lake question, and Major Kemp will probably be present.—The reef from which the Golden Crown Mining Co. were taking stone at Terawhiti for the purpose of another rich crushing has suddenly closed, and been lost.—The German residents intend celebrating the 99th anniversary of the Emperor William's birthday.

ACCIDENTS AND OFFENCES.

(Per Telegraph—Association.)

WELLINGTON, March 15.—The infant daughter of Mr. Hensman, blindmaker, here, was drowned this morning. The mother left the child for two or three minutes, and on returning found her in the water dead.

Samuel Bennett was arrested to-day at the Hut on a charge of stealing a quantity of jewellery and wearing apparel, valued at £120, from three dwelling houses.

A stable containing a quantity of hay and chaff, the property of John Skeet, was destroyed by fire at Greytown caused by a bush fire.

DUNEDIN, March 15.—Owen Carraway, wire-worker, a recent arrival from Brisbane, was found dead yesterday in an outhouse attached to the Temperance Hotel, in which he was staying. The medical evidence was to the effect that deceased probably died from rupture of a blood vessel, and at the inquest the verdict returned was—death from natural causes. Deceased has a wife and family in Brisbane, and they are supposed to be fairly well off.

WAIKAWA, March 15. A man named Richard Anderson had his brains knocked out at Firth's saw-mill, at 3 p.m. to-day, by a piece of wood which caught in the circular saw.

We are informed that the many statements relative to the falling off in the supply of iron ore at Tararu simply amount to this, that the most suitable blocks for the smelting furnaces are nearly exhausted at the place from which they have hitherto been obtained. There is every reason to believe that a further supply is obtainable higher up the hill, equally suitable to that hitherto delivered, and that the hematite left shows an almost inexhaustible supply suitable for the manufacture of pig-iron. Mr. Darrow has put on a number of men to-day to prospect for the best locality for the quality of ore for fixing purposes.

The Thames members of the new Drainage Board left by the Rotomahana yesterday afternoon to attend the meeting to be held in Auckland this morning, at 10 o'clock. The members included the Mayor, the County Chairman, Messrs. McGowan, Tuttle, and Comer.

In compliance with an application made by the Mayor to the Minister of Public Works, the resident engineer, Mr. D. M. Beers, visited Thames the end of last week, for the purpose of consulting with the Borough Council, as to the best means for carrying off the debris accumulating at the mouth of the Karaka Creek. A minute examination was made of the bed of the river, together with the various drains emptying into it. On leaving Thames yesterday morning, Mr. Beers took away with him the various plans connected with the adjacent grounds. After examining these with reference to the nuisance complained of, he promised the Mayor to furnish the Council a report on the subject.

Mr. Wilkinson, Government Native Agent, wired yesterday to the returned prospectors, Messrs O'Sullivan and Brown, as follows:— "Am sorry that so much energy and ability, coupled with delay and obstruction, that you and your companions have had to contend against, should have met with no better result. The disappointment is great, but it is satisfying to know that the country has been tested by those thoroughly qualified to do so.—G. T. WILKINSON." This communication was sent in reply to the report presented by the prospectors.

A farewell soiree of the members and personal friends of the Rev. W. S. Potter was held at the chapel last evening. It was very fully attended, and the feelings expressed were of the heartiest for the future welfare of the outgoing pastor. These were suitably reciprocated by him, and great thankfulness expressed for the advance made during the year, with trust that Rev. Mr. Glover, who is expected to arrive so as to occupy the pulpit next Sunday, may meet with every encouragement here.

A meeting of drapers' assistants is convened by advertisement in another column for this evening at the Royal Hotel at 7.30. Business: Celebration of Thursday's ball holiday.

An Association telegram received from Dunedin last night reports that Sir George Gray leaves for Gore in the morning where he will address a meeting. He will probably address another meeting in Dunedin before leaving for Christchurch.

We notice that a large number of cases of drapery goods (13) arrived per steamer Aorangi, from London, have found their way to the Thames, being imported by Mr. S. Hetherington, of Pollen-street.

The performance of the "Orotoro" last evening at the Academy of Music deserved a much better attendance than it received. This was no fault of the management, but simply owing to the volunteer display continuing to late an hour. Doubtless, the public will make up for this to-night when "Lost in London" will be placed on the boards.

There was every appearance of a heavy dust fire raging last evening at the back of Punga Flak.

The banks will all be closed for the holiday to-morrow.

Is a man has a quarrelsome temper let him alone. The world will soon find him employment. He will soon meet with some one stronger than himself who will repay him better than you can. A man may fight deals all his life if he is disposed to quarrel.—Cecil.

The best and most simple remedy for tender feet is to soak them at night in tepid water, to which a handful of bran may be added; and should the tenderness be extreme and persistent, a little powdered borax or salt ammoniac should be added to the water.

IN BANKRUPTCY.

In the District Court of Waikato and Thames (being a local Court of Bankruptcy), holden at Thames.

In the matter of "The Bankruptcy Act, 1883," and the amendments thereof.

NOTICE IS HEREBY GIVEN, that I, ISAAC PHILLIP LEAH, late of Waitekuri, but now of Thames, in New Zealand, miner, have this day filed in the said Court at Thames, a petition to be adjudged a bankrupt. Dated this 15th day of March, 1886.

ISAAC PHILLIP LEAH, J. M. H. LUSH, Bankrupt's Solicitor.

IN BANKRUPTCY.

In the District Court of Waikato and Thames (being a local Court of Bankruptcy), holden at Thames.

In the matter of "The Bankruptcy Act, 1883," and the several amendments thereof, and of the bankruptcy of ISAAC PHILLIP LEAH, late of Waitekuri, but now of Thames, in the Provincial District of Auckland, miner, a bankrupt.
